SECURITY PRODUCTS

ROLLER SHUTTERS

There are plenty of reasons for the growing use of aluminium motorised roller shutters in Mauritian houses:

- They are practical and easy to operate, opening o closing at the touch of a button
- They provide enhanced protection against break-ins and severe weather conditions.
- Made to measure, they can be used in various ways - on a terrace, to secure picture and other windows, and to seal garages, warehouses and other storage areas.
- They integrate well in all situations – homes, hotels and business or industrial premises.

Discover our product range:

Standard Roller Shutters

See-through Roller Shutters

STANDARD ROLLER SHUTTERS

Our shutters are made to measure with two kinds of aluminium slats available:

- 55 mm slats at a very competitive price for smaller openings.
- 77 mm slats suitable for large openings (up to 7 metres).

SEE-THROUGH ROLLER SHUTTERS

With their perforated slats, you retain the comfort and security of standard roller shutters while providing better ventilation and allowing natural light to penetrate.

77 mm micro-perforated slats for use on openings of up to 7 metres.

As the shutters are tailor-made, for a supplement you can personalise your shutters by choosing your own custom colour. Other RAL colours a available at extra cost.

Alu Systèmes

PLANTATION SHUTTERGUARD®

Security and style. Stylish louvered aluminium security shutters.

While security does not always go hand in hand with style, ShutterGuard® louvered shutters, made by Taylor of South Africa, prove that the two are not incompatible.

There's no longer any need to compromise the aesthetics of your home or business as ShutterGuard® is a chic and elegant solution that still provides the security you need.

PRODUCT INFORMATION

Technical specifications

ShutterGuard® are made-to-measure aluminium securit shutters, that come with a ten-year guarantee.

Taylor has designed and patented an innovative system that has been subjected to numerous security tests, in oorder to produce shutters that are virtually impenetrable.

The louvres can be adjusted to control air circulation and light.

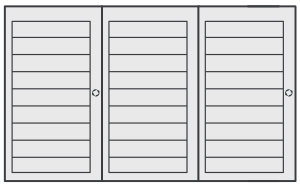

CONFIGURATIONS

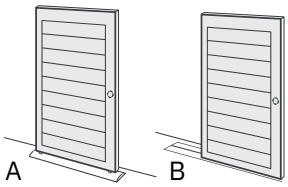

Track options

Top track with lip (to neaten uneven walls, window frames, gaps etc)

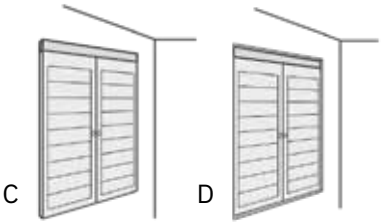

Top track without lip

Bottom track raised

Bottom track recessed

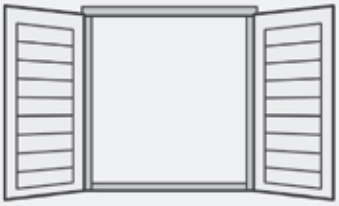

Face fixed with top track (stands proud against the opening)

Reveal fixed with top track (set inside the window/door reveal)

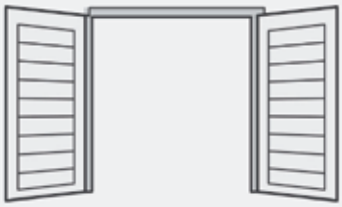

Configuration of openings

Bi fold

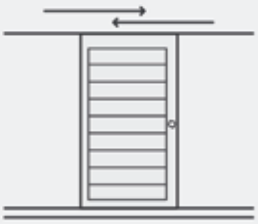

Cottage style

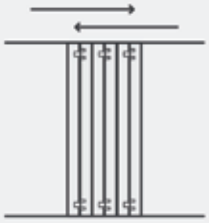

Cottage arch (NB no bottom track)

Bi pass
(more than one rail)

Slider (1 rail)

Floating (stacked shutters can move left or right)

Pivot (left or right) – either the extreme left or extreme right shutter is fixed and does not move. The other shutters therefore pivot from this fixed point.

We also offer an alternative aluminium louvered shutter system; Hurricane Shutters.

These stylish, durable shutters not only enhance the look of a room but also help control light, noise, and temperature. Rust-resistant and easy to maintain, Hurricane Shutters come with a ten-year guarantee for long-lasting quality.

COLOURS

- Anthracite
- Light Grey
- Bronze
- White
- Stone Grey

Additional RAL colours are available for an extra cost.
